

# Welcome to 4th Grade

Ms. Daniel

My name is Tamia Daniel and I will be one of your scholar's 4th grade teachers. I have taught 4th grade for 4 years and at the Clap for 3 of those 4 years. I completed my Masters of Education through Boston Teacher Residency, where I truly learned how to build a productive learning community. This year, I hope to build trusting relationships with all of you, and work together to make sure all students are getting what they need! For fun, I like to travel and try new foods.

Ms. Gabby

Hi Fourth Graders and Families! My name is Gabby Boyd and I am the fourth grade paraprofessional. This is my second year at the Clap. I completed my bachelors at Bridgewater State and am working on my masters at UMB. I have interned at multiple schools and worked summer programs with all ages for 6 years now. I can't wait to build great relationships and work together this year. For fun I like to do arts and crafts and spend time with family and friends.

Ms. McGhee

My name is Celeste McGhee and am the 4th & 5th grade learning specialist. I have taught for over twenty years in a wide variety of schools and roles. Most recently, I taught sixth-grade math and served as a math interventionist for grades K-5 in Cambridge Public Schools. My passion is helping students develop into joyful, confident, independent learners through thoughtful collaboration with co-educators to build learning communities that know success comes through persistence, perseverance, and partnership. The two mottos that encapsulate my vision for classrooms I share—You are stronger, braver, and smarter than you think and Together, we can do hard things.

Some of my favorite things are math games and puzzles, reading and journaling, and spending time with my three (all-grown-up) sons.
